

Ultra Short Throw ALR Fixed Frame Screen

comm Ultra Short Throw Ambient Light Rejection (ALR) Fixed Frame Screen - specially designed for your Ultra Short Throw (UST) projectors.

With the special optical structure, Comm ALR Fixed Frame Screen not only reject the ambient light for your comfortable viewing, but also retains the real colours and resolution.

With Gain of 0.46 and viewing angle of 140 degree, Comm ALR Fixed Frame Screen eliminates almost 90% of external lights and you will be able to see clearer and vivid images even in brightly lit environments and during daytime.
